Jumper Class Descriptions

Table II.2.b. Time First Jump-Off - The first round and first jump-off, if any, are decided by adding together the faults incurred over the course and any penalties for exceeding the Time Allowed, if any. If a competitor has gone clean in the first round, he/she will, without leaving the ring, upon an audible signal, commence the designated jump-off course. In the event of equality of faults after the first round, there will be one jump-off for first place only in which time will decide in the event of equality of points.

Table II.2.c. Power and Speed - The first round and first jump-off, if any, are decided by adding together the faults incurred over the course and any penalties for exceeding the Time Allowed, if any. If a competitor has gone clean in the first round, he/she will, without leaving the ring, upon crossing the finish line, commence the designated jump-off course. Time starts as the horse crosses the finish line for the initial course. If a competitor has not gone clean in the first round, upon an audible signal, he/she will leave the ring. If there are no clean rounds and a tie exists for first place, there will be one jump-off in which time will decide in the event of equality of faults. The use of time allowed is optional in the first round.

Table IV.2.b. Time First Jump-Off Optimum Time - Rules are the same as in Table II.2.b Time First Jump-Off class, with one exception. An "Optimum Time" (defined as 4 seconds less than the Time Allowed for the course) will be posted on the course plan; the horse with the time on course closest to the Optimum Time (over or under) will prevail in a tie.

Table IV.2.b. Power and Speed Optimum Time - Rules are the same as in Table II.2.c Power and Speed class, with one exception. An "Optimum Time" (defined as 4 seconds less than the Time Allowed for the course) will be posted on the course plan for the jump-off; the horse with the time on course closest to the Optimum Time (over or under) will prevail in a tie.
